

What is a tow-a-bin™ ?

tow-a-bin™ is a patent pending bracket for towing trash bins and recycle bins to the street pick-up point.

How easy to use tow-a-bin™?

tow-a-bin™ is easy as 1-2-3. Follow the steps below:

FOR
MORE
BINS

Are my bin's contents safe when I tow with tow-a-bin™?

Yes, **tow-a-bin™** securely holds the bin's lid, so lid won't open. Please do not exceed recommended speed limit.

Can I tow two or more bins at the same time?

tow-a-bin™ attaches bins together, so you can tow 2, 3 bins at the same time.

You will need one **tow-a-bin™** for each bin.

I don't have hitch in my vehicle, can I use still tow-a-bin™?

Yes, you can. tow-a-bin™ can attach to any car SUV with a trunk or rear door if the follow the below instructions-supplies are not included in your order. You will need

<ul style="list-style-type: none">• 2 tennis or baseball balls• 3 plastic twist ties• An old sock – preferably knee high• Self-stick felt protection pads for furniture		
--	--	---

Attach the sock and balls like the picture, secure the ball positions with plastic ties. If necessary, use self stick felt protection between the car and the bracket. Attach the bracket to the garbage bin and pull at the rear of the car/SUV and drop the loose ball into your trunk or rear door and close the trunk. Be sure the bracket has self stick felt protection where it touches the car paint.

Use it at your own risk. We cannot accept any responsibility for this solution/suggestion.

Can I take my bin to dumpster with tow-a-bin™? Or to my brother's house?

tow-a-bin™ is designed to be used on private driveways, do not use on public roads.

What are the precautions should I take when I am tow-a-bin™?

 Do not exceed 6 MPH. You may slow down on uneven driveways, sharp turns, snowy and icy conditions.

 Do not reverse or back-up while tow-a-bin™ attached to your vehicle.

 Never carry pets, animals or live stock in a bin.
